## APPLE ORCHARDS ARE PROFITABLE

M. W. Richards, of Purdue University, Gives Practical Demonstrations to Fruit Growers.

### MANY ATTENDED THE MEETING

Statistics Given Which Show That Greater Revenue Is Received From Sprayed Trees.

A large number of persons interested in fruit growing attended the lectures and demonstrations which were given at the Stanfield orchard today and were given many valuable suggestions for the care of the trees. The lectures were given by M. W. Richards, of the Experimental Stations and were very clear and forceful. He showed that the attention which was necessary to cultivate an orchard properly was profitable and that the returns would be many times larger than when the trees were allowed to grow year after year without the necessary care.

The morning lectures and demonstrations were given to subjects of "Pruning" and the "General Care of Orchard Trees." His talks were confined almost wholly to commercial orchards and pointed out that a large profit could be made from apple orchards. He believes that southern Indiana is especially adapted for cultivation of trees and that profitable orchards could be maintained in any part of Jackson county. He stated that now was the time to put in new orchards as the old trees were dying rapidly and that soon the yearly crops would be smaller than they are at the present time. Mr. Richards showed just how the trees should be pruned by a practical demonstration.

In the afternoon Mr. Richards gave the greater part of his time to the subject of "Spraying." He showed that the trees were injured by insect pests and fungus diseases and that the crops would be of an inferior quality until these were destroyed. He explained the various spraying mixtures that could be used with success and recommended especially, lime sulphate, bordeaux and arsenate of lead. He explained when the spray should be used, how it should be placed on the trees and the results if used properly. Several trees were sprayed in order that the use of spraying mixtures might be fully understood.

Statistics were given by Mr. Richards which he had gathered from the Stanfield orchard to show that spraying was profitable. He stated that it cost approximately twenty cents per tree for the spraying mixtures. From the trees which were sprayed in the local orchard fifty per cent. of the crop was what is classified at No. 1 apples, while on the unsprayed trees only four per cent. of the crop could be sold as No. 1 apples. The sprayed trees averaged 4.5 bushels to each tree, while the unsprayed trees only averaged .36 of one bushel. The apples were sold this year for \$1.75 per barrel which made a total of \$2.63 as the gross income from each tree. Deducting the cost of the spraying mixtures, .20

from this amount left a net income of \$2.43 from the sprayed trees. The total amount received from No. 1 apples from the unsprayed trees amount to about 23 cents. Mr. Richards cited these statistics to show that there was no question but that spraying was profitable. Three rows of trees were not given any attention, whatever this year, and the statistics which were given for the unsprayed trees were obtained from the crop which was gathered from these trees. Much interest has been shown in the orchard by the farmers and fruit growers of Jackson county and it is believed that the results this year will cause more farmers to give their orchards closer attention.

A large number of fruit growers from adjoining counties were here for the demonstration. Representatives of the botany class of Franklin College were here in the afternoon. The botany class of Columbus high school was also represented. Many of the local high school students were there in the afternoon. The pupils of the consolidated school were on the ground during the day, meeting.

### AFTER ELECTION

Walter Neal and Justice Sharick Will Be Tried at Scottsburg.

Judge Shea will adjourn court at Scottsburg today until Nov. 10. One of the first cases that will be tried after court convenes will be the state case against Walter Neal, who is charged with defrauding the Scottsburg State Bank out of \$800. He will be tried under the name of Thomas L. Manning which he used in his operations. Justice Sharick, the Frankfort hotel man who is charged with complicity in the swindle will be tried later. Thomas Honan of Seymour, is one of his attorneys. Neal is still in jail while Sharick is out on bond.

### W. C. T. U.

There was a good attendance of W. C. T. U. ladies and visitors at the home of Mrs. Frank Teckemeyer Wednesday afternoon. In addition to the program Mrs. R. R. Short gave a very interesting report of the State W. C. T. U. convention at Fort Wayne bringing the best of the many excellent programs to the busy home workers. The usual social interval which is always a delightful part of the W. C. T. U. closed this important session.

### Paid Fine.

Wednesday evening in Justice Congdon's court George Kelch living in the northwest part of the city, entered a plea of guilty to a charge of assault and battery on his wife, Mrs. Anna Kelch. He paid his fine and costs which amounted to \$9.80. The charge was filed by his wife.

## FIRE LEFT FAMILY ALMOST DESTITUTE

House and Contents Belonging to Samuel Anderson, Near Farmington, Totally Destroyed.

### DEFECTIVE FLUE THE CAUSE

House Burned So Quickly That The Neighbors Were Unable to Give Assistance.

A defective flue was the cause of a fire Wednesday afternoon which destroyed the house occupied by Mr. and Mrs. Samuel Carpenter, near Farmington, together with every article of their worldly goods, leaving the family in a pitiable condition. The house was burned so quickly that every attempt to save the contents was futile.

The fire was discovered by the little five year old daughter, of Mr. and Mrs. Carpenter, who notified her mother who was washing some clothing near the rear of the house. By the time Mrs. Carpenter reached the house the blaze was coming from the doors and windows and it was impossible to reach any of the furniture. She called to several of the neighbors who were near, but they could do nothing to save neither the house or the contents. Mr. Carpenter was working with a corn shredder some distance from the house and by the time he was notified by his son, and reached the place, the house was almost entirely burned to the ground.

The wind blew the flames towards a small shed about twenty feet from the house, and this building with several farming implements was also totally destroyed. Mr. Carpenter lost a large quantity of provisions which were stored in the shed. The house was owned by Mrs. Clara McDonald, a cousin of Mr. Carpenter.

Mr. Carpenter places his loss at \$150 without insurance. While the amount is not large it is a heavy loss to him as it represents the total amount of his property and leaves him penniless. Mr. Carpenter and his family were cared for by his relatives and neighbors.

### "BEVERLY"

Another Strong Attraction Will Appear at The Majestic Tonight.

Theatre goers will be given an opportunity to see another strong attraction at the Majestic this evening, in the presentation of George Barr McCutcheon's "Beverly." This play has attracted wide spread interest and is always seen with great delight. The play which has been taken from the novel, and is clever and entertaining.

The company which presented this play tonight has met with great success, and has been highly complimented for the splendid manner in which the scenes are staged. The principals of the play are well known in the theatrical world and have played leading roles with several of the largest companies in the United States.

The sale of seats for tonight has been very satisfactory and another big house is expected.

### LADY MACCABEES

From Seymour Will Attend Reunion of Columbus Hive.

A party of Lady Maccabees from Seymour will go to Columbus this evening to attend the annual reunion of the Hive there in honor of the four charter members. It had been the intention to have a class from Seymour for initiation at this meeting but as it is not yet ready for the work. The initiation will be held here later.

An interesting program has been arranged by the Columbus Hive and the meeting will close with a luncheon. Among those from Seymour who will go are Mrs. W. B. Hopkins, Mrs. Albert Johnson, Miss Sue Steele, Miss Esther Elliott, Miss Nora Cadem, Miss Edna Humes and Miss Bessie Humes and Miss Clara Steele.

### WRECK ON BRANCH

Wreckage Blocked Track and Passenger Trains Detoured Here.

A freight car broke down on the B. & O. S-W. branch this morning near Commiskey piling up several cars and blocking the road. No one was injured in the accident. There seemed to be some difficulty in securing a wrecking crew, and it was almost noon before the wreckage was cleared up. The wreck occurred about 5:30 o'clock.

The passenger train which were scheduled to pass the wreckage were detoured over the tracks here and transferred to the Pennsylvania tracks.

### To Be Married.

Announcement has been made at Pullman, Washington of the approaching marriage of Prof. Charles A. Isaacs and Miss Hattie McRea. The groom is the son of County Recorder W. M. Isaacs of Brownstown. The Pullman Herald says:

Both Professor Isaacs and Miss McRea are well and favorably known in Pullman. Mr. Isaacs is professor of mathematics at the State College, and Miss McRea was until recently employed as head trimmer in the millinery department of the Borgan-Emerson store. While no definite day for the happy event has been named, it is probable that it will occur during the holidays.

### Thanksgiving Turkeys.

Thanksgiving is the 24th of November this year and turkeys should be in the eastern markets by Monday, the 21st.

We will begin dressing for the Thanksgiving market Monday, Nov. 7, which will give us ten days in which to dress turkeys for freight shipments to seaboard markets. Corn is cheaper than usual and it will pay to feed all kinds of poultry all that they can eat, and this is especially true of turkeys.

Please let us know by telephone or mail what you have to offer, and we will advise you when to deliver your poultry.

### OFFICERS ELECTED

Mrs. O. S. Guernsey, Again Chosen President of W. F. M. S.

The annual meeting of the Woman's Foreign Missionary Society of the Methodist church for the Seymour district, adjourned at Columbus Wednesday afternoon after a most successful meeting. The attendance was large at all the sessions.

Mrs. O. S. Guernsey, of this city, who served as president of the district during the past year, was re-elected for the same position. The other officers chosen were: first vice president, Mrs. Harry Frye, Utica; second vice president, Mrs. O. L. Jones, Franklin; corresponding secretary, Mrs. Martha Crim, Sellersburg; recording secretary, Mrs. Ida Allen, Brownstown; treasurer, Mrs. Lena Scarce, Jeffersonville.

On Tuesday evening the chief address was made by Dr. J. H. Doddridge, of Jeffersonville, formerly of this city.

### The Oldest Printing Press

Typography, or the art of printing from movable type, was invented in Europe about the middle of the fifteenth century. Beyond this fact, the history of this far-reaching industry is very uncertain. It is generally considered that cut wooden type was first used, then cut leaden type, and that afterward cast type was employed. William Caxton, in 1476, was the first to practice printing from movable type in England. The oldest type of printing press which, by the way, is now in the South Kensington Museum, is the actual machine with which Benjamin Franklin worked in the year 1730. It is constructed of hardwood, mortised together; it carries two horizontal rails, upon which slides a carriage supporting the frame of composed type, called the form. The type was inked by two large pads, or balls, with ink on their surfaces, the distribution of the ink being performed by applying them to the form.—From the November STRAND.

### Wash That Itch Away

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25 cent bottle today. We assure you of instant relief.

## BALLOONISTS ON WAY HOME

Hawley and Post Landed Safely  
in Wilderness.

### TOOK WEEK TO REACH A WIRE

Missing Aeronauts Report Their Arrival at St. Ambrose, a Canadian Outpost, After a Week of Strenuous Struggle Through Well-Nigh Impassable Wilderness—"All Well," Is the Message Conveyed to Aero Club.

Chicoutimi, Que., Oct. 27.—Hawley and Post, of the America II., arrived here at 10 o'clock last night. They were in the air forty-six hours in all, and traveled approximately 1,450 miles. Mr. Post, in describing the trip, said that while they had to husband their food, their hardships were inconsiderable. After four days' tramping through the brush they came upon a trapper's hut and were received hospitably.

New York, Oct. 27.—Alan R. Hawley and Augustus Post of the America II. are safe; not only that, but they have broken the world's record for distance traveled in a balloon. A dispatch announcing the safety of the men of whom no certain news had been heard since the start on Oct. 17 was received at the Aero club last evening. It was signed by Hawley and Post, and read:

"St. Ambrose, Saguenay, Quebec, Oct. 26.—Landed near Peribonka river, north of Lake Chilgoma, on 19th. All well; returning."

When the man who got the message had done a war dance to give outlet to his feelings, he thought of the club's secretary, Charles Heitman, who was leaving on the 6:55 train for Ottawa, to take part in the hunt for the missing balloonists. A messenger jumped on board the train a minute before starting time, and told him to get off and hurry back to the club.

"I knew that meant everything was all right," said Mr. Heitman, "and you can bet I hustled back."

When he reached the club Mr. Heitman lost no time in calling up William Hawley, the balloonist's brother, who has spent the last week either at the club or at the end of a telephone wire waiting for news. He got Hawley at the latter's apartment. It was a bit hard to make Hawley understand that his brother was really safe, but when he did Mr. Heitman heard a fervent "Thank God," and then apparently Mr. Hawley dropped the receiver.

The news at once was wired to the St. Louis club, which managed the start of the racing balloons, and to the men in Canada who were organizing searching parties.

When the excitement had cooled down a bit the thoughts of everyone at the club turned to the question, "Have they beat the Dusseldorf?"

Samuel F. Perkins, who with Pilot Hans Gerlocke manned the Dusseldorf II., led the rush for the chairroom. It took some time to figure the thing out because of the indefinite nature of the message, but the club experts finally decided that the America II. had landed about seventy-five miles ahead of the Dusseldorf II., and that the race and world's record was theirs.

The Dusseldorf II. came to earth near Kiskisno, Quebec, which is estimated to be about 1,250 miles from the starting point and was the world's record until the America II. reported. If the Aero club experts figure the thing right, the America II.'s flight was 1,325 miles in an air line from St. Louis. The world's record before this race had been set at 1,193 miles, by Count Henry De La Vaulx in a flight from Vincennes, France, to Korostchev, Russia, in 1900.

While the official announcements will not be made for some time, the figuring of the Aero club people and the contestants themselves places the leading balloons in the following order: America II., Dusseldorf II., Germania. When Mr. Perkins, who in spite of sailing with the Dusseldorf II., is a Bostonian, was convinced that Hawley had the record he took another look at the spot on the map which showed the perils which must have confronted the America's crew, and said: "Well, they're a blame lucky pair, anyway. I'm glad the United States wins."

The telegram from St. Ambrose by Hawley and Post shows that they came to earth on the same day that the Dusseldorf landed and that the difficulties of travel were so great that it took them a whole week to get back to the end of a telegraph wire. St. Ambrose is not big enough to get on the map, but it is about forty miles north of Chicoutimi, where the Saguenay river steamers make their last stop northward bound. How many of those seven days were spent in an unaided struggle with the wilderness cannot be known until Hawley sends further details. The country in which they landed is a network of lakes and rivers, dense forests and impassable marshes.

Perkins and his companion took four days and nights in traveling seventeen miles through similar country, and they lost most of their clothing in the fight with the brush.

Former Senator Joseph B. Foraker has cancelled all his campaign speaking engagements in Ohio.

## Fifty Years Ago Today. Oct. 27.

Next to the approaching election, the chief topic of discussion throughout the Union was the "right of secession," as it was called. ### Carrots.

Carrots were first introduced into England by Flemish gardeners in the time of Elizabeth, and in the reign of James I. they were still so uncommon that ladies wore bunches of them on their hats and on their sleeves instead of feathers.

Widely recommended for its curing qualities. Its reputation for superior merit has stood for thirty years. Nothing so good for indigestion, constipation, rheumatism and bad blood as Hollister's Rocky Mountain Tea. Andrews-Schwenk Drug Co.

### Steam Power.

The power of steam was known to the ancients, a mechanical contrivance in which it was used being noted by Hero of Alexandria about 130 B. C., but nothing came of it, and it was not till the seventeenth century that its power was again recognized.

You are often out of sorts, your body lacks energy, your nerves are weak, bad taste in your mouth; why not help nature by taking Hollister's Rocky Mountain Tea? Tea or Tablets, 35 cents. Andrews-Schwenk Drug Co.

### An Inference.

"That man doesn't own an auto and has no chance of ever buying one."  
"What makes you say that?"  
"It's easy to tell. Didn't you see how heartily he laughed when he saw his friend's auto stalled in the mud?"—Detroit Free Press.

LOOK INTO  
CAR SHORTAGEIndiana Railroad Commission  
Begins Investigation.

A WINTER TIE-UP IS FEARED

Apparent Shortage of Equipment on  
the Part of the Roads Creates the  
Fear That the Roads Will Find  
Themselves Flooded With Coal Or-  
ders and With No Cars With Which  
to Take Care of Them.

Indianapolis, Oct. 27.—Shortage of  
equipment of railroads will be taken  
up by the Indiana railroad commis-  
sion. Chairman Wood says that many  
cars that were made to do service last  
year in emergencies, are unfit for an-  
other season of usage, and the chair-  
man fears that at a critical time dur-  
ing the coming winter the railroads  
will find themselves flooded with coal  
orders and with no cars with which to  
take care of them.

"One reason for the shortage," says  
Chairman Wood, "is the fact that un-  
der a ruling of the interstate com-  
merce commission, a railroad is com-  
pelled to pay only 25 cents a day for a  
car belonging to another company  
which it appropriates to its own use.  
The roads have found it cheaper to  
pay the nominal sum than to build  
cars, while they do not relish the idea  
of building cars for their own use  
when they are likely to be seized by  
another company and used for an in-  
definite time at the price set out in  
the ruling. It seems to me that it  
will be necessary to readjust the rul-  
ing in the interest of better shipping  
facilities."

## Mines Forced to Shut Down.

Chicago, Oct. 27.—Chicago faces a  
coal shortage. Many yards are almost  
empty with the incoming supply about  
equal to the demand, and it is pre-  
dicted that a sudden drop in temperature  
would result in suffering. Present  
conditions are attributed to shortage  
of cars on the railroads. Several  
large Indiana coal fields are practically  
idle, with a demand for fuel which  
would have justified working every  
mine to its full capacity. Where work  
was suspended the reason given was  
that the railroads supplied an insuffi-  
cient number of cars to carry the coal.

## IT BECAME PERSONAL

Law and Order Folks and Saloon  
Keepers Mix It at Laporte.

Laporte, Ind., Oct. 27.—There was a  
street riot on Main street, in front of  
the office of Prosecutor R. N. Smith,  
between a number of saloon keepers  
and members of the Law and Order  
League. More than 200 people were  
involved in the affair, and it required  
a squad of police, with Chief Meinke  
at the head, to quell the disorder.  
Four men were arrested. Black eyes,  
bruised faces and bloody noses were  
the general order of those who were  
in the thick of the fight.

Eight saloon keepers had been ar-  
rested for violating the closing laws,  
and after reaching the sidewalk, and  
while in front of the prosecutor's of-  
fice, the bad blood between the mem-  
bers of the league and the saloon keep-  
ers cropped out. One word led to an-  
other, and in a second the crowd was  
in a mix-up. R. G. and S. C. Hunt, of  
the league, were first attacked and  
after one had been knocked down and  
kicked, they waded into the saloon  
keepers and in a few minutes they had  
"cleaned up" William C. Smith,  
Charles Hammersly, John Smith and  
Frank Lapham. Others then took a  
hand in the fracas, and it gave prom-  
ise of being a regular battle when the  
police arrived.

## SEEKING A CHANGE

Terre Haute Starts Movement For  
Commission Form of Government.

Terre Haute, Ind., Oct. 27.—Terre  
Haute will ask the legislature to make  
it possible for the city to have a com-  
mission form of government. The  
Young Business Men's club will take  
charge of the movement to get the  
measure through the legislature. The  
high tax rate, notwithstanding the  
largely increased tax valuation, has  
caused a desire to be free of the pres-  
ent form of government.

Vice President Sherman is cam-  
paigning in North Carolina.

JOHN B. PETERSON

Nominated for Congress by Demo-  
crats of 10th Indiana District.PENNSYLVANIA FACES  
STATE-WIDE STRIKEOrder Given For Unionists to  
Quit Work Election Day.

Philadelphia, Oct. 27.—Labor leaders  
are disinclined to discuss for publica-  
tion an order issued at Wilkesbarre by  
the officers of the State Federation of  
Labor calling a strike of all union men  
in Pennsylvania on election day, No-  
vember 8.

The order for the state-wide strike  
was sent out from Wilkesbarre and  
was signed by E. E. Greenwalt, state  
president of the Federation of Labor,  
and seven vice presidents.

The strike is to begin at 7 o'clock  
in the morning and last until 8 o'clock  
at night. The men are urged to take  
advantage of the cessation of work to  
vote, but are not instructed to vote  
for any particular party's nominee.  
The general feeling among the local  
leaders is that since the strike order  
is of a political nature, it would be  
wiser to wait until it was discussed  
and acted upon by the unions before  
speaking themselves.

## SHE WILL RETIRE

Bearded Lady's Marriage Puts Stop  
to Public Career.

South Bend, Ind., Oct. 27.—The  
"bearded lady" of Barnum & Bailey's  
circus became a bride yesterday. In  
private life the widely known perform-  
er was Miss Grace Gilbert of Kalkaska  
county, Michigan, but with her mar-  
riage she becomes Mrs. Giles A. Cal-  
vin. Calvin is a farmer, fifty-three  
years old, nineteen years older than  
his wife.

The "bearded lady" announced her  
retirement from the circus life follow-  
ing her marriage. She said she was  
born with a growth of hair on her face  
and that she had exhibited herself as  
a freak for sixteen years. "I am now  
going back to my husband's farm," she  
said, "and will never appear in a show  
again. I will try to make a good wife."  
Mr. Calvin has no whiskers, only a  
mustache.

## Crippen Will Appeal.

London, Oct. 27.—Arthur Newton  
solicitor for Dr. Hawley Harvey Crip-  
pen, who was convicted of the murder  
of his wife, announces that an appeal  
will be taken to the court of criminal  
appeals.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages, and  
that is Catarrh. Hall's Catarrh Cure  
is the only positive cure now known  
to the medical fraternity. Catarrh  
being a constitutional disease, re-  
quires a constitutional treatment.  
Hall's Catarrh Cure is taken inter-  
nally, acting directly upon the blood  
and mucous surfaces of the system,  
thereby destroying the foundation of  
the disease, and giving the patient  
strength by building up the constitu-  
tion and assisting nature in doing its  
work. The proprietors have so much  
faith in its curative powers that they  
offer One Hundred Dollars for any  
case that it fails to cure. Send for

### NEWSY PARAGRAPHS.

Mrs. W. C. Whitmer is erecting a new cottage on west Third street.

W. F. Pfaffenberger is arranging to put a new roof on the Elks building.

Another gas and oil well is to be drilled at Heltonville. Some gas was found when the first well was sunk.

General Superintendent Gallaway, and Supt. Hagerty of the B. & O., were here in a special car today on an inspection trip.

K. C. Wilson was here from Indianapolis today meeting friends. He is doing a successful contracting business in Indianapolis.

Prosecutor Swails delivered a Democratic speech at Freetown last night. A drum corps from Brownstown furnished music.

C. J. Remy came down from Columbus this morning to visit his son, Postmaster Remy, and to attend the demonstration at the Stanfield farm.

The paper mill at Brownstown has resumed work. It has been shut down several weeks for remodeling and the putting in of new machinery.

Postmaster Walter Neible of Edinburg, and Miss Cornelia Keyes, daughter of the late Judge Keyes, were married Tuesday evening at Columbus.

George A. Beyer, of Rockford, received twenty white Maltese pigeons from Ridge Top, Tenn. Mr. Beyer has a large number of fine pigeons at his farm and has had much success in raising them.

John Peter and Fred Everback were duck hunting Wednesday and brought in the first duck of the season. They say that ducks seem to be more numerous than usual this year and that they saw several flocks during the day. They brought twelve home with them.

A few nights ago a party of men and women placed a wagon belonging to William Woods, on the B. & O. S-W. tracks at the Brown street crossing, and it was completely demolished by a passing train. It is supposed that the party took the wagon from Mr. Woods' house as a Halloween prank.

Postmaster C. T. Benton showed us a sweet potato a few days ago which was two feet long, but it lacked a whole lot of being that in circumference. He emphasized the fact that it was of his "own raising"—that is he "raised" it out of the ground; but didn't say who did the cultivating.—Brownstown Banner.

William Schrolucke from near Washington, visited at Albert Spray's today. He farmed in this county many years and in talking of old times recalled the days thirty years ago when he hauled corn twelve miles to the Blish Mills, receiving 23 cents a bushel for it. This year he received 60 cents.

### REPUBLICAN STATE PLATFORM

Embodies Substantial Principles of Constructive Government.

We, the republicans of Indiana, declare our determined support of those great policies for the common good developed under Theodore Roosevelt and bearing his name, and we demand that they be given effect in legislation and administration.

We believe in a protective tariff, measured by the difference between the cost of production here and abroad. This is fair to American manufacturers; less than this is unjust to American laborers; more is unjust to American consumers. That difference should be ascertained with the utmost speed and effective legislation enacted accordingly.

We demand the immediate creation of a genuine, permanent, nonpartisan tariff commission with ample powers and definite duties fixed by the law itself.

We believe with President McKinley in his last tariff utterance, that "the period of exclusiveness is past," and we heartily favor the republican

policy of reciprocity first announced by Blaine, and later advocated by McKinley.

We demand comprehensive laws for the conservation of our natural resources, and especially that the coal deposits of Alaska shall be kept the property of the nation, to be developed only under lease and payment of just royalties to the government.

In times of war, or any other emergency, when ordinary forms of taxation are not enough for the needs of the government, the nation should have the constitutional power to tax incomes. We heartily favor an amendment to the constitution giving congress this power.

We favor such limitation of the power of injunction as will not imperil the liberty of any man without notice and hearing.

We favor national legislation which will end child slavery in the factories, mines and sweatshops throughout the land.

We favor just and liberal pensions to all deserving soldiers and to the widows and orphans of those who are dead. Every general pension law now on the statute books was placed there by a republican congress. We believe the time has come for the enactment of what is known as the dollar-a-day pension plan for the relief of the necessities of civil war veterans.

We heartily approve the records made by our present republican state officials.

We point with pride to the long list of effective and salutary laws that have been enacted by republican legislatures. We have always been the friend of organized labor. We created a labor commission. We provided for factory inspection. We established trade schools. We enacted wise laws for the control of child labor. We enacted model statutes providing for nonpartisan control of the state's charitable, benevolent and penal institutions. We created a railroad commission. We placed private banking under state supervision and regulation. We have taken the people's money from under political control and distributed it impartially under the public depository law, and provided that the interest on money shall accrue to the public benefit. We enacted laws safeguarding the public health and meeting in all respects the just expectation of the most prosperous and progressive of American commonwealths.

We recognize that no president in our history ever began his administration with such universal favor and good will as did William Howard Taft, few men have entered the presidency with such extraordinary training. As collector of internal revenue, prosecuting attorney, Judge of a state court, solicitor general, federal judge, governor of the Philippines, secretary of war, builder of the Panama canal, regenerator of Cuba—each period of official activity immediately following another for his entire adult life—he brought to the discharge of the great duties of the presidency broad executive experiences and grasp of governmental affairs. We indorse his administration and pledge to him our support in any efforts to secure the enactment of progressive legislation.

The spirit of the times demands not only wise policies and sound principles, but clean, vigilant, brave and sincere men in public office. We indorse and applaud the splendid record of our senior senator, and especially his record in the last session of congress, which deserves the unqualified approval of all the people of the state. With pride and confidence we make a solemn pledge to the people that a republican legislature will return to the senate of the United States this man, whose name is synonymous with victory—Albert J. Beveridge.

Resolved, That the eagle be adopted as the emblem of the Republican party in Indiana.

### HOW OLD PEOPLE

May Prolong Their Lives.

At an advanced age waste is more rapid than repair. The organs act more slowly and less effectually than in youth. The circulation is poor—the blood thin and watery—the appetite poor and indigestion weak.

We want to say to every aged person in this vicinity that Vinol, our delicious cod liver and iron tonic (without oil) will prolong life. It creates an appetite, aids digestion and makes good blood. In this natural manner Vinol retards waste and replaces weakness with strength, giving new life to the worn system.

If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Andrews-Schwenk Drug Co.

### Thomson's "Glove Fitting" Corsets

were the first made in America, and for more than fifty years they have been the first choice of women who are particular that their gowns shall have the correct figure lines. The secret of the great success of these corsets lies in the fact that they fit the figure like a glove, in other words, they are absolutely comfortable, which cannot be said of all corsets. Our corsetiere will see that you get the right model, the right length and perfect adjustment of the garment about the bust and hips. If you have had trouble in getting a perfect fit before, we can provide it, if not out of stock, will see that it is ordered from the factory.

## The Girl Who Lives Alone

whether she attends college or goes to business, needs the Perfection Oil Heater. It will heat a cold, cheerless boarding house or dormitory room and make it livable. It is always a ready help in the many things women do for themselves in their rooms. With the damper top opened it will heat water for tea or cocoa; it will dry the small articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources. The

is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a cool handle and a damper top.

An indicator shows the amount of oil in the font. The filler-cap is put in like a cork in a bottle, and is attached to the font by a chain. It has an automatic locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Republicans Show Great Record  
For State Management.

### GREAT BURDEN IS REMOVED

Cost of Maintaining State Institutions Greatly Reduced by Business Methods Introduced by Republicans—Democrats Were Extravagant, and Republicans Wrought Reform on Behalf of the Taxpayers.

Republicans took charge of Indiana's government in 1895, and held control and management in all things up to 1908, when a governor, a superintendent of public instruction and a legislative majority were elected by Democrats.

In the period from 1896 to 1906, the Republicans paid \$6,715,615.12 of the state debt. They found a debt of \$7,520,615.12. They cut this down to \$805,615.12 in ten years. The debt remaining in 1906 was made up of bonds not due or payable until 1910.

So far as has been seen, the Democratic governor and his Democratic legislature have not shown either the ability or the desire to wipe out the \$805,615.12 that remained to be paid in 1910. In fact, the talk is of new bond issues rather than the payment of the debt. And the sinking fund has been raided for nearly \$800,000 to pay the cost of one Democratic legislature.

Here is the record of Republican management from 1896 to 1906, as to the payments made on the state debt:

April 1, 1896.....	\$ 100,000
July 13, 1896.....	200,000
December 18, 1896.....	200,000
April 1, 1897.....	150,000
June, 1897.....	80,000
July, 1897.....	190,000
October 30, 1897.....	100,000
January, 1898.....	200,000
July, 1898.....	200,000
January, 1899.....	200,000
January, 1899.....	100,000
June, 1899.....	100,000
August, 1899.....	212,000
January 1, 1900.....	183,000
July 3, 1900.....	300,000
January 7, 1901.....	200,000
July 1, 1901.....	300,000
January 3, 1902.....	317,000
July 26, 1902.....	1,000,000
January 5, 1903.....	200,000
July 11, 1903.....	250,000
November 15, 1903.....	85,000
January 15, 1904.....	200,000
July, 1904.....	250,000
January, 1905.....	206,000
July, 1905.....	253,000
January, 1906.....	154,000

It was during the period of Republican complete control that the laws were passed which increased the state's income from fees from \$99,000 annually in Democratic times, to more than \$500,000 a year in Republican times. This means more than \$400,000 a year turned into the general fund, or a saving to the taxpayers of that sum.

In 1893 the Democrats made the tax levy. That levy was 32.50 cents on each \$100. Under the succeeding Republican rule, this went down to 30 cents, and up to 1907 remained under the 1893 levy of the Democrats. In the latter year there was an increase of 2.75 cents in the levy for the three state educational institutions. The creation of the educational institutional fund naturally brought up the total state tax levy, but even with this considerable addition, the levy was increased only to 33.35 cents on the \$100.

It can be noted that the general fund levy in 1908 was 9 cents, while under Democratic control, in 1893, the general fund levy was 10 cents on the \$100. It is to be noted that while the population of benevolent institutions has increased more than 25 per cent in the years since 1893, the levy for those institutions remains the same as in 1893. Which indicates a large reduction in the cost of maintenance under Republican management.

**Attacks Protection.**  
Our onslaught is upon the doctrine of protection in its entirety.—Thomas R. Marshall, Democratic governor of Indiana. Same old onslaught in the same old way. Remember '92.

### PRICES COMPARED.

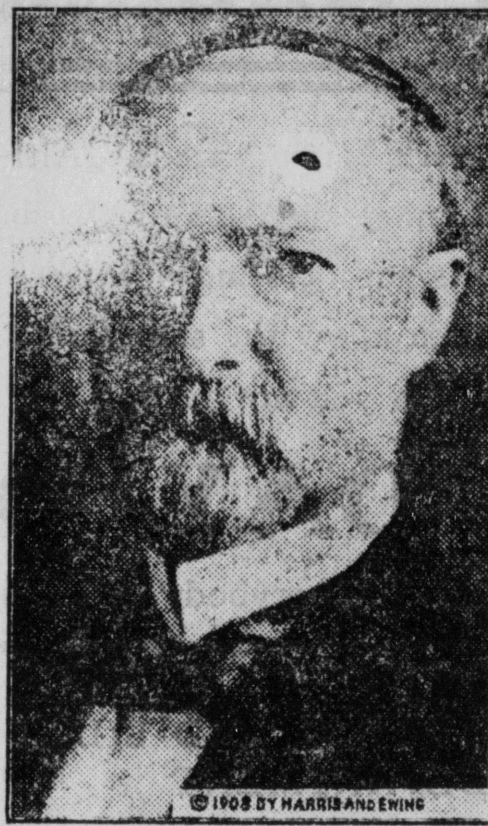

While John W. Kern, Senator Shively, and other Democrats are howling against existing commodity prices and demanding that prices of products shall be cut to lower levels, it is the wise thing for the farmer to study prices of today and compare them with the prices paid for his products under conditions which Kern, Shively and their friends are demanding. Here are prices for Oct. 1, 1896, the same day in 1900, Oct. 2, 1905, and Oct. 1, 1910, in Indianapolis:

	1896.	1900.	1905.	1909.
Wheat -	85 1/2	76 1/2	84	85
Corn -	35 1/2	42 1/2	44 1/2	57 1/2
Oats -	20	24	23 1/2	24 1/2
Hay -	8.50	12.00	10.00	16.50
Cattle -	4.50	4.25	5.25	6.85
Hogs -	3.15	5.25	6.00	8.85
Sheep -	3.75	4.25	6.25	6.00

Is there anything in this showing of prices to induce the Indiana farmer to make a return to the 1896 levels, even if Democratic orators demand that he shall return?

### CHARLES W. FAIRBANKS

Originator of the Indiana Forestry Association.

## CINCINNATI HAS A JACK THE RIPPER

Fifth In Fiendish Series Puzzles the Police.

Cincinnati, Oct. 27.—Police today find that they have absolutely no clue as to who murdered Mrs. Mary Hackney, a young married woman, whose dead body with throat cut and otherwise horribly mutilated, was found Tuesday evening by her husband, Harley Hackney, mechanic and ex-soldier, on his return from work to their humble home on Canal ridge, in the suburb of Cumminsville. The police have heretofore found themselves in just this same state in connection with four other equally fiendish murders of women committed in the same lonely locality within the past three years. In each of these murders the victim was mutilated in much the same way as was Mrs. Hackney. Chief Corbin said that several circumstances and especially the kind of wounds indicate that the last murder was committed by the same degenerate who had slain the four other women in the same vicinity.

**Roosevelt in New York State.**  
Ogdensburg, N. Y., Oct. 27.—Mr. Roosevelt hit the trail north from central New York yesterday and landed at the St. Lawrence river last night. He kept swinging the political ax at the head of Candidate Dix with more vehemence than ever. He developed little that was new in the day's speeches. Today Roosevelt is skirring around Herkimer and Oneida counties, and at night he will talk in Utica, the home of Vice President Sherman.

**Durant Trial in Progress.**  
Albany, N. Y., Oct. 27.—The trial of Edward A. Durant, formerly head of the big grain house of Durant & Elmore company, with offices in Albany, Chicago, Buffalo and Boston, on a grand larceny indictment is in progress before the county court here. The indictment is based on the obtaining of loans from the bank upon fraudulent bills of lading.

**Three Hundred Perished.**  
Rome, Oct. 27.—It is ascertained that 200 people perished in the recent flood at Cetara and twenty at Ischia. The total number of killed is now placed at 300. The money damage is estimated at \$6,000,000.

### LABOR BUREAU MAKES GOOD

Author of Law and Enforcer of Statute Is Given Credit For Success of Beneficent Bureau Where Poor Man May Obtain Help to Land Job and Be Safe From Swindlers Who Formerly Preyed Upon Him.

One of the strong men on the Republican state ticket, because of his expert fitness for office, and because of his popularity, is J. L. Peetz, state statistician. Mr. Peetz is assured of re-election because he has proved his ability and his experience is of large value to the state. His opponent not only is inexperienced, but is admittedly not qualified for the important position of statistician.

Mr. Peetz shows unexpected strength as a vote-getter among the labor men of the state as well as among the farmers and business men. There's a reason.

Mr. Peetz drew the bill under which the Free Employment Bureau was created. Labor men assisted in preparing this bill and in urging its enactment. Mr. Peetz, without an extra appropriation from the state, has put the bureau in operation, has conducted it with an eye to the interests of needy laborers, and has proved the wisdom and the value of the new system.

In the first nine months of the operation of the bureau, jobs were obtained for 1,527 persons. Many of these were the parents of families in destitute circumstances. Not only did the free bureau save these poor people many thousands of dollars in fees, in the aggregate, but the operation of the bureau means many thousands saved to the taxpayers. Scores of families have been saved from charity and have been made independent through the beneficence of the free employment bureau.

Along the same reform line as the law, also urged by Mr. Peetz, for the regulation of private employment agencies, fees have been fixed by this law, licenses have been required, and in several cases Mr. Peetz has sent swindlers to jail for defrauding laborers under pretense of obtaining employment for them.

### WHO'S FOR KERN.

Roll Call Reveals Presence Of Sturdy Steve In Lone Grandeur.

Well, let's count. There's Mr. Bryan, he's for Kern for United States senator. But Mr. Bryan is from Nebraska, and is not running for the legislature in Indiana. So his vote doesn't count.

There is Governor T. R. Marshall. He's for Kern. But Mr. Marshall doesn't vote in the Democratic legislative caucus. So he can be rubbed off.

Crawford Fairbanks has said he is for Mr. Kern. But members of the third house do not cast votes in caucus. So he doesn't count either.

Thomas Taggart is for Mr. Kern for United States senator. Taggart says so. But he is not on the legislative ticket, and will not cast a ballot in caucus. So he can be dropped.

John J. Keegan, a candidate for representative in Marion county, has come out for Kern. But Keegan cannot be elected. So it is not safe to count him.

Steve Fleming is for Mr. Kern. He has so announced in the press. Now we are getting down to assets. Fleming counts. He is a holdover senator. He will have a vote. So at last we have discovered the Kern vote. It is Steve Fleming.

## JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.

# Snappy Weather Shopping News for the Public

The crispness in the morning air reminds us all of Winter's coming needs. Although a little late in starting, and much to our disappointment, we are overstocked in many departments. Weather conditions during September and part of October prevented the usual advance selling, and now in order to make up our deficiency we must force the merchandise off our shelves. This is not a closing-out sale of picked-over stuff, nor a premium-parlor sale where the free, give-away paper slips have to be added to the value of your purchase, and then allow the solicitor of the prize package to part with them for self interest. When it requires premiums to produce values it's time to watch yourself, and see that you are getting the same treatment as your neighbor.

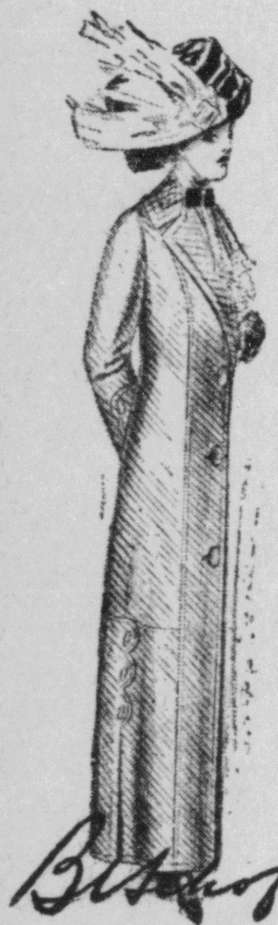

## FRIDAY, OCTOBER 28,

We will inaugurate a GREAT VALUE-GIVING SALE. Everybody will have an equal chance at this contest. No blanks. No disappointments.
